CONFERENCE CHAIRMAN: Norman L. Wulfsohn  
CONFERENCE SECRETARY: Edward F. Gelineau  
University of Texas Medical School  
San Antonio

OFFICERS

Anthony Sances, Jr., President, Marquette University  
Alan R. Kahn, Vice President, Medtronic Inc., Minneapolis, Minnesota  
David V. Reynolds, Vice President, University of Windsor  
Bernard Saltzberg, Vice President, Tulane University  
Jack J. Snyder, Secretary, Hoffman-La Roche, New Jersey

NATIONAL ADVISORY BOARD

Edgar J. Baldes	James A. Meyer
Joseph J. Barboriak	James W. Prescott
Robert O. Becker	Donald H. Reigel
Carmine D. Clemente	Alfred W. Richardson
Donald F. Flickinger	Lawrence R. Rose
Lester A. Geddes	Charles E. Short
Ernest O. Henschel	Kenneth A. Siegesmund
Reginald A. Herin	Charles F. Stroebe
Raymond T. Kado	Calvin C. Turbes
Sanford J. Larson	Arthur S. Wilson
Irving Lutsky	Norman L. Wulfsohn
Simon E. Markovich	

All enquiries for the Neuro-Electric Society should be addressed to:

Mr. Jack Snyder  
Senior Research Associate  
Department of Medical Research  
Hoffman-La Roche Inc.  
Nutley, New Jersey 07110

## PREFACE

This second volume of the "Nervous System and Electric Currents" represents the collected papers of the Proceedings of the fourth annual national conference, organized by the Neuro-Electric Society. It will be held at the Convention Center, San Antonio, Texas, March 10-12, 1971.

The interests of the Neuro-Electric Society focus upon the measurement and quantification of neuro-electric phenomena, neuro-stimulation and recording techniques and procedures, and the applications of biomedical engineering to the furthering of our understanding about neural-behavioral processes.

These research papers further explore the influence of electrical currents on the neurophysiological correlates of the nervous system. The "central" nervous system is still the main focus of research. The use of transcranially applied electric currents in the production of electro-sleep and electro-anesthesia is the important practical clinical aspect of these interesting researches. However, a new emphasis is now also beginning to be placed on the effects of these applied currents to the "peripheral" nervous system.

The Editors wish to thank the following sponsors: Office of Naval Research, Washington, D.C. (Grant No. NR 108-918); Medtronic Inc., Minneapolis, Minnesota; and Plenum Press, New York, New York. We also wish to thank for their cooperation the Association for the Advancement of Medical Instrumentation, Bethesda, Maryland, the Institute of Electrical and Electronic Engineers (Group of Engineering in Medicine and Biology), New York, New York, and the International Society for Electro-sleep and Electro-Anesthesia, Graz, Austria.

We would like to thank Mr. E. Gelineau and Mrs. Linda Peters for their untiring help in preparation of this Proceedings Book.

The Editors,

Norman L. Wulfsohn  
Anthony Sances, Jr.

March 1971

#### LIST OF CONTRIBUTORS

Robert D. Allison, Chief, Cardiovascular Physiology, Scott and White Clinic, Temple Texas

Maxim Asa, Director, Department of Physiology and Clinical Research, Monmouth Medical Center, Long Branch, New Jersey

S. C. Ayivorh, Biophysics Research Unit, Faculty of Pharmacy, University of Science and Technology, Kumasi, Ghana

L. E. Baker, Baylor College of Medicine, Houston, Texas

Edmundo Baumann, Institute of Bio-Medical Electronics, Department of Physiology, University of Toronto, Division of Neurosurgery, Toronto General Hospital, Toronto, Canada

D. Brittain, Baylor College of Medicine, Houston, Texas

Joseph D. Bronzino, Worcester Foundation for Experimental Biology, Shrewsbury, Massachusetts

Leo A. Bullara, Huntington Institute of Applied Medical Research, Pasadena, California

Neil R. Burch, Head, Psychophysiology Division, Texas Research Institute of Mental Sciences, Texas Medical Center, Houston, Texas

P. Cabler, Baylor College of Medicine, Houston, Texas

Enrique J. A. Carregal, University of Southern California School of Medicine, Los Angeles, California

Guillermo Chavez-Ibarra, Department de Investigacion Cientifica, Centro Medico Nacional, IMSS, Mexico, D. F.

x

LIST OF CONTRIBUTORS

M. E. Cherviakov, Laboratory of Experimental Physiology for Animal Resuscitation, Academy of Medical Sciences, First Moscow Medical Institute, Moscow, USSR

J. K. Cywinski, Department of Anesthesia, Massachusetts General Hospital, Boston, Massachusetts

José M. R. Delgado, Department of Psychiatry, Yale University School of Medicine, New Haven, Connecticut

Jerry S. Driessner, University of Texas Medical School, San Antonio, Texas

Daniel A. Driscoll, Union College, Schenectady, New York

P. W. Droll, Research Scientist, Ames Research Center, NASA, Moffett Field, California

Allan H. Frey, Technical Director, Randomline, Incorporated, Willow Grove, Pennsylvania

Harry G. Friedman, Research Program Manager, Medtronic Incorporated, Minneapolis, Minnesota

L. A. Geddes, Baylor College of Medicine, Houston, Texas

E. Gelineau, Department of Anesthesiology, University of Texas Medical School, San Antonio, Texas

Oldrich Grünner, Balneological Research Institute, Working Center Spa, Jeseník-Graefenberg, Czechoslovakia

H. L. Gurvieh, Laboratory of Experimental Physiology for Animal Resuscitation, Academy of Medical Sciences, First Moscow Medical Institute, Moscow, USSR

Susan Halter, Department of Anatomy, Queen's University, Kingston, Ontario, Canada

Warren Harding, Orthopedic Resident, University of California at Los Angeles Medical Center, Los Angeles, California

L. Hause, Departments of Pathology and Neurosurgery, Medical College of Wisconsin, Milwaukee, Wisconsin

Norman Hoffman, Departments of Neurosurgery and Chemistry, Medical College of Wisconsin and Marquette University, Milwaukee Wisconsin

Michael Hoshiko, Department of Pathology and Audiology, Southern Illinois University, Carbondale, Illinois

## LIST OF CONTRIBUTORS

- M. Hsu, Systems Analyst, Department of Psychiatry of the University of Missouri School of Medicine at the Missouri Institute of Psychiatry, St. Louis, Missouri
- T. M. Itil, Professor and Associate Chairman, Department of Psychiatry of the University of Missouri School of Medicine at the Missouri Institute of Psychiatry, St. Louis, Missouri
- E. J. Iufer, Research Scientist, Ames Research Center, NASA, Moffett Field, California
- K. P. Kaverina, Laboratory of Experimental Physiology for Animal Resuscitation, Academy of Medical Sciences, First Moscow Medical Institute, Moscow, USSR
- A. S. Khalafalla, Systems and Research Center, Honeywell Incorporated, St. Paul, Minnesota
- Judith M. Kilby, Faculty of Science, University of Science and Technology, Kumasi, Ghana
- G. A. Kitzmann, NRC-NASA Resident Research Associate, Ames Research Center, Moffett Field, California
- J. J. Konikoff, Environmental Sciences Laboratory, General Electric Company, Philadelphia, Pennsylvania
- Jan Kryspin, Institute of Bio-Medical Electronics, Department of Physiology, University of Toronto, Division of Neurosurgery, Toronto General Hospital, Toronto, Canada
- A. C. K. Kutty, Palat House, Panniyankara Calicut, Kerala, India
- M. N. Kuzin, Laboratory of Experimental Physiology for Animal Resuscitation, Academy of Medical Sciences, First Moscow Medical Institute, Moscow, USSR
- S. J. Larson, Department of Neurosurgery, Medical College of Wisconsin, Milwaukee, Wisconsin
- Benjamin Lesin, Orthopedic Research Resident, Rancho Los Amigos Hospital, Downey, California
- Aime Limoge, L'ecole Nationale de Chirurgie-Dentaire de Paris, Montrouge, France
- H. M. Liventsev, Laboratory of Experimental Physiology for Animal Resuscitation, Academy of Medical Sciences, First Moscow Medical Institute, Moscow, USSR

- Y. Maass, Bioengineer, COMM/ADP Laboratory, H. Q., USAECOM, Fort Monmouth, New Jersey
- John Marasa, Scientific Programmer Analyst, Department of Psychiatry of the University of Missouri School of Medicine at the Missouri Institute of Psychiatry, St. Louis, Missouri
- Simon E. Markovich, Clinical Associate Professor of Neurology, University of Miami, School of Medicine, Coral Gables, Florida
- Richard E. McKenzie, University of Texas Medical School, San Antonio, Texas
- Donald R. McNeal, Director of Neuromuscular Engineering, Rancho Los Amigos Hospital, Downey, California
- Jose Medina-Jimenez, Somepsic, Mexico, D. F.
- V. D. Minh, Pulmonary Research Fellow University of California, San Diego School of Medicine, University Hospital of San Diego County, San Diego, California
- L. H. Montgomery, Assistant Professor, Vanderbilt University School of Medicine, Nashville, Tennessee
- Vert Mooney, Chief, Amputee and Problem Fracture Service, Rancho Los Amigos Hospital, Downey, California
- Kenneth M. Moser, Associate Professor of Medicine, Director, Pulmonary Division, University of California, San Diego School of Medicine, San Diego, California
- B. A. Negovskii, Laboratory of Experimental Physiology for Animal Resuscitation, Academy of Medical Sciences, First Moscow Medical Institute, Moscow, USSR
- C. H. Nute, Computer Specialist, Department of Psychiatry of the University of Missouri School of Medicine at the Missouri Institute of Psychiatry, St. Louis, Missouri
- E. Otis, Department of Orthopedics, Monmouth Medical Center, Long Branch, New Jersey
- Robert Pearson, Department of Neurophysiology, Rancho Los Amigos Hospital, Downey, California
